Romania

With the support of the
Erasmus+ Programme
of the European Union

**Cultural Heritage:
An inclusive path
for participation and exchange
in Europe**

2019-2021

Main objectives

The main objectives of the project are:

- Improve awareness, understanding and respect of students' cultural heritage as well as other cultures' heritage
- Improve the awareness of the need of cultural heritage protection
- Promote the acceptance of differences and diversity and cultivate inclusion in schools
- Assist the school community to handle social phenomena such as immigration and refugees better
- Foster citizen's skills by implementing critical thinking, ICT and by encouraging a feeling of acceptance and belonging
- Improve the cultural and educational capital by improving life-long job skills and reducing dropout rates
- Help children to become active European citizens adjustable to changes, open to progress and prepared to work together in order to achieve common goals
- Explore school communities and culture across Europe to promote common European values and enhance social cohesion
- Develop creativity and artistic expression
- Develop and improve English language skills
- Compare teaching methods, school strategies and organisation, innovative software and webtools use to improve school results and reduce the dropout rates among participating schools
- Coordinate with local associations, community and school boards to implement the project, evaluate it and disseminate its results
- Encourage among children an optimistic view of the future, friendship, alliance and emotional and social skills through art.
